

Data Driven Decision Making

Katherine Vastine
WATCH Project Manager
HPOG 2012 Annual Grantee Meeting
November 14, 2012

WATCH is using DDDDM for:

- ① Program Management
- ① Program Learning and Sharing
- ① Program Improvement and Planning

Types of Data and Sources:

Federal Evaluations

What does evidence mean to Project Directors?

- Program improvement / modify components
- Sustainability
- Developing Partnerships
- “Sell it”

Question:

Are we meeting our outcomes?

Question:

How are we meeting individual and occupational needs?

Question:

How well are we delivering services to participants and employers?

Question:

Are we allocating resources effectively?

Question:

How can we enhance processes to improve outcomes?

Labor Market Information

- Recruitment
- Meeting the Needs of Employers

Lessons Learned:

- ◎ Balance the use of all data sources
- ◎ Be prepared to collect additional information
- ◎ Centralize data entry
- ◎ Have regular and purposeful conversations about what the data is telling you

Decision Making
